AUTHOR INDEX

ADDY, V. L. The Use and Subsequent Treatment of Surfactants for Leather Processing 205
ADDY, V. L. The Use of Neutral Protease in Enzymatic Unhairing 180
ALBIZANE, A. Processing of Chrome Tanned Solid Waste Generated in the Leather Industry: Recovery of Proteins and Synthesis of a Pigment for Paint 1
ALBIZANE, A. Study of the Quality of Pigment Prepared by Complexation of Chromates Recovered from Treated Chrome Shavings and Tanned Splits 426
AMRHAR, J. Study of the Quality of Pigment Prepared by Complexation of Chromates Recovered from Treated Chrome Shavings and Tanned Splits 426
ARMSTRONG, M. W. Practical Evaluation of Ethylenediamenetetraacetic Acid for Controlling Iron Stains on Vegetable Tanned Leather 481
ASHOK, A. Interior Leathers: Application of Leather as a Functional and Decorative Finish 23
AZZI, M. Processing of Chrome Tanned Solid Waste Generated in the Leather Industry: Recovery of Proteins and Synthesis of a Pigment for Paint 1
AZZI, M. Study of the Quality of Pigment Prepared by Complexation of Chromates Recovered from Treated Chrome Shavings and Tanned Splits 426
BAILEY, D. G. Electron Beam Irradiation Preservation of Cattle Hides in a Commercial-Scale Demonstration 382
BAILEY, D. G. Evaluation of Urea Sulfate as a Replacement for Sulfuric Acid in Chrome Tanning 268
BAILEY, D. G. Evaluation of Urea Sulfate as a Substitute for Formic Acid in the Retan, Color, and Fatliquor Process 333
BERENGUER, J. Comparison of the Properties of Black Dyestuffs - New Developments 79
BERRY, F. J. Recovery and Reuse of Chromium from Leather Shavings: Formation of Chrome-containing Ceramic Pigments 46
BONI, K. A. Letter from the Editor 191
BOUHRIA, M. Processing of Chrome Tanned Solid Waste Generated in the Leather Industry: Recovery of Proteins and Synthesis of a Pigment for Paint 1
BOUHRIA, M. Study of the Quality of Pigment Prepared by Complexation of Chromates Recovered from Treated Chrome Shavings and Tanned Splits 426
BOWDEN, W. The Use and Subsequent Treatment of Surfactants for Leather Processing 205
BRETH, M. New Developments in Wet White Tanning Technology 111
BROWN, E. M. Enzymatic Modification of Hydrolysis Products from Collagen Using a Microbial Transglutaminase. I. Physical Properties 319
BROWN, E. M. Modified Collagen Hydrolysate, Potential for Use as a Filler for Leather 262
BRYANT, S. D. Fact and Fantasy Regarding Resistance to Microbicide 162
BUEHRIG, B. W. Assessment of Vegetable Tannin Extracts by Colorimetry 192
BUEHRIG, B. W. Practical Evaluation of Ethylenediamenetetraacetic Acid for Controlling Iron Stains on Vegetable Tanned Leather 481
CABEZA, L. F. Enzymatic Modification of Hydrolysis Products from Collagen Using a Microbial Transglutaminase. I. Physical Properties 319
CARDAMONE, J. M. Evaluation of Urea Sulfate as a Substitute for Formic Acid in the Retan, Color, and Fatliquor Process

333
CARLE, J. New Developments in Wet White Tanning Technology 111
CHANDRABABU, N. Application of Alkaline Protease Isolated from *Alcaligenes facalis* for Enzymatic Unhairing in Tanneries 127
CHANDRASEKARAN, B. Interior Leathers: Application of Leather as a Functional and Decorative Finish 23
CHAUDHURI, D. Correlating Process Parameters with Hexavalent Chromium Level in Leather 461
CHEN, W. Modified Collagen Hydrolysate, Potential for Use as a Filler for Leather 262
CONDON, L. W. The Impact of Disease Developments on Trade in Livestock Products 350
COOKE, P. H. Modified Collagen Hydrolysate, Potential for Use as a Filler for Leather 262
COSTANTINI, N. Recovery and Reuse of Chromium from Leather Shavings: Formation of Chrome-containing Ceramic Pigments 46
COVINGTON, A. D. Chrome Tanning: Exploding the Perceived Myths, Preconceptions, and Received Wisdom 467
COVINGTON, A. D. The Use of Neutral Protease in Enzymatic Unhairing 180
DAVIGHI, D. The Use of Neutral Protease in Enzymatic Unhairing 180
DHATHATHREYAN, A. A New Insight into the Shrinkage Phenomenon of Hides 417
DIDATO, D. Presentation of the 2001 Fred O'Flaherty Service Award 305
DIEN, M. Comparison of the Properties of Black Dyestuffs - New Developments 79
DIMAIO, G. L. Degree of Opening Up of the Leather Structure Characterized by Acoustic Emission 367
DIMAIO, G. L. Effects of Vacuum Drying Variables on the Mechanical Properties of Leather 243
DIMAIO, G. L. Electron Beam Irradiation Preservation of Cattle Hides in a Commercial-Scale Demonstration 382
DIMAIO, G. L. Evaluation of Urea Sulfate as a Replacement for Sulfuric Acid in Chrome Tanning 268
DIMAIO, G. L. Evaluation of Urea Sulfate as a Substitute for Formic Acid in the Retan, Color, and Fatliquor Process 333
DIMAIO, G. L. Modified Collagen Hydrolysate, Potential for Use as a Filler for Leather 262
DONMEZ, K. The Robert M. Lollar Prize Paper 287
EL A'MMA, A. Performance Synergy from Acrylic-Based Retanning Agents 9
ERVIN, R. T. Live Cattle Value Based on Phenotypic Characteristics as Related to Hide 214
FATHIMA, N. N. A New Insight into the Shrinkage Phenomenon of Hides 417
FATHIMA, N. N. Chromium(VI) Formation: Thermal Studies on Chrome Salt and Chrome Tanned Hide Powder 444
GEHRING, A. G. Electron Beam Irradiation Preservation of Cattle Hides in a Commercial-Scale Demonstration 382
GEHRING, A. G. Evaluation of Urea Sulfate as a Replacement for Sulfuric Acid in Chrome Tanning 268
GEHRING, A. G. Evaluation of Urea Sulfate as a Substitute for Formic Acid in the Retan, Color, and Fatliquor Process 333
GNANASEKARAN, C. S. Improvements in Vegetable Tanning - Can Acrylics Be Co-Tanning Agents? 120
GRAF, D. Formation of Cr(VI) Traces in Chrome Tanned Leathers: Causes, Prevention, and Latest Findings 169
GUPTA, S. Upgrading Low-Grade Grain Leather Using High Performance Polymeric Dispersions by a Transfer Coating System 157
HANKEY, R. A. Strategic Technical Process Design and Competitive Advantage Enhancement Techniques 255
HANKEY, R. A. The Use and Subsequent Treatment of Surfactants for Leather Processing 205
HAQUE, M. N. Fact and Fantasy Regarding Resistance to Microbicide 162
HARVEY, R. J. Assessment of Vegetable Tannin Extracts by Colorimetry 192
HENNIG, C. Characterization of Chromium Complexes in Chrome Tannins, Leather, and Gelatin Using Extended X-ray Absorption Fine Structure Spectroscopy 133
HERMANN, L. S. Assessment of Vegetable Tannin Extracts by Colorimetry 192
HERMANN, L. S. Practical Evaluation of Ethylenediamenetetraacetic Acid for Controlling Iron Stains on Vegetable Tanned Leather 481
HERRING, A. D. Live Cattle Value Based on Phenotypic Characteristics as Related to Hide 214
HURLOW, E. Closing Remarks 311

HURLOW, E. Letter re: IULTCS Congress from the ALCA President 45
HURLOW, E. Opening Remarks 287
IANDOLA, S. K. Leather Made from the Hides of Double-Muscled Cattle Has Satisfactory Physical Characteristics 393
IGL, G. New Developments in Wet White Tanning Technology 111
JAYAKUMAR, R. Improvements in Vegetable Tanning - Can Acrylics Be Co-Tanning Agents? 120
KING, V. M. Fact and Fantasy Regarding Resistance to Microbicide 162
KUJAMBAL, A. Upgrading Low-Grade Grain Leather Using High Performance Polymeric Dispersions by a Transfer Coating System 157
LANDRIDGE, D. A. The Use and Subsequent Treatment of Surfactants for Leather Processing 205
LATONA, N. P. Degree of Opening Up of the Leather Structure Characterized by Acoustic Emission 367
LIU, C.-K Effect of the Composition of Vinyl Polymer Tannages on the Physical Properties of Leather 14
LIU, C.-K Effects of Vacuum Drying Variables on the Mechanical Properties of Leather 243
LIU, C.-K. Acceptance of the 2001 Alsop Award 308
LIU, C.-K. Degree of Opening Up of the Leather Structure Characterized by Acoustic Emission 367
MA, J. Effect of the Composition of Vinyl Polymer Tannages on the Physical Properties of Leather 14
MA, J. Synthesis of Modified Poly(Acrylic Acid-Acrylonitrile) Retanning Agent with Mannich Reaction and Its Application 437
MADHAN, B. Improvements in Vegetable Tanning - Can Acrylics Be Co-Tanning Agents? 120
MADHAN, B. Tanning Agent Based on Mixed Metal Complexes of Aluminum and Zinc 343
MARCINKOWSKA, E. Water Vapor Permeability Measurement with the "Hy-Tester" Physical Simulator 94
MARMER, W. N. Enzymatic Modification of Hydrolysis Products from Collagen Using a Microbial Transglutaminase. I. Physical Properties 319
MARMER, W. N. Leather Made from the Hides of Double-Muscled Cattle Has Satisfactory Physical Characteristics 393
MARMER, W. N. Overview of the USDA Hides and Leather Research Program 88
MESSAOUDI, A. Processing of Chrome Tanned Solid Waste Generated in the Leather Industry: Recovery of Proteins and Synthesis of a Pigment for Paint 1
MESSAOUIDI, A. Study of the Quality of Pigment Prepared by Complexation of Chromates Recovered from Treated Chrome Shavings and Tanned Splits 426
MOHAMED, I. The Use of Neutral Protease in Enzymatic Unhairing 180
MONDAL, S. Correlating Process Parameters with Hexavalent Chromium Level in Leather 461
MOURID, A. Study of the Quality of Pigment Prepared by Complexation of Chromates Recovered from Treated Chrome Shavings and Tanned Splits 426
MOZERSKY, S. M. Leather Made from the Hides of Double-Muscled Cattle Has Satisfactory Physical Characteristics 393
MURALIDHARAN, C. Improvements in Vegetable Tanning - Can Acrylics Be Co-Tanning Agents? 120
MURALIDHARAN, C. Two Stage Tanning - A New Approach for Chrome Management 61
NAGARAJAN, T. Application of Alkaline Protease Isolated from *Alcaligenes facalis* for Enzymatic Unhairing in Tanneries 127
NAVARRO, A. Comparison of the Properties of Black Dyestuffs - New Developments 79
PANDIMADEVI, V. Upgrading Low-Grade Grain Leather Using High Performance Polymeric Dispersions by a Transfer Coating System 157
PATTERSON, L. N. Live Cattle Value Based on Phenotypic Characteristics as Related to Hide 214
PAUL, R. G. The Use of Neutral Protease in Enzymatic Unhairing 180
PRICE, D. N. Recent Advances in Soft-Tough Acrylic Technology 54
RAGHAVA RAO, J. Approach Toward Zero-Discharge Tanning: Exploration of NaOH-Based Opening Up Method 222
RAGHAVA RAO, J. Chromium(VI) Formation: Thermal Studies on Chrome Salt and Chrome Tanned Hide Powder 444
RAGHAVA RAO, J. Tanning Agent Based on Mixed Metal Complexes of Aluminum and Zinc 343

RAJKUMAR, G. Application of Alkaline Protease Isolated from *Alcaligenes facalis* for Enzymatic Unhairing in Tanneries 127
RAMANAIAH, B. Upgrading Low-Grade Grain Leather Using High Performance Polymeric Dispersions by a Transfer Coating System 157
RAMASAMI, T. A New Insight into the Shrinkage Phenomenon of Hides 417
RAMASAMI, T. Acceptance of the John Arthur Wilson Memorial Lecture Plaque 310
RAMASAMI, T. Approach Toward Zero-Discharge Tanning: Exploration of NaOH-Based Opening Up Method 222
RAMASAMI, T. The 42nd John Arthur Wilson Memorial Lecture: Approach Towards a Unified Theory for Tanning: Wilson's Dream 290
RAMASAMI, T. Two Stage Tanning - A New Approach for Chrome Management 61
REICH, G. Characterization of Chromium Complexes in Chrome Tannins, Leather, and Gelatin Using Extended X-ray Absorption Fine Structure Spectroscopy 133
REICH, T. Characterization of Chromium Complexes in Chrome Tannins, Leather, and Gelatin Using Extended X-ray Absorption Fine Structure Spectroscopy 133
ROSS, G. D. Electron Beam Irradiation Preservation of Cattle Hides in a Commercial-Scale Demonstration 382
ROSSBERG, A. Characterization of Chromium Complexes in Chrome Tannins, Leather, and Gelatin Using Extended X-ray Absorption Fine Structure Spectroscopy 133
SCHOLZ, W. The Use and Subsequent Treatment of Surfactants for Leather Processing 205
SENIOR, K. The Use and Subsequent Treatment of Surfactants for Leather Processing 205
SHELLY, D. Presentation of the John Arthur Wilson Memorial Lecture Plaque 309
SIBARI, A. Processing of Chrome Tanned Solid Waste Generated in the Leather Industry: Recovery of Proteins and Synthesis of a Pigment for Paint 1
SIEGLER, M. Acceptance of the 2001 Fred O'Flaherty Service Award 306
SMART, L. E. Recovery and Reuse of Chromium from Leather Shavings: Formation of Chrome-containing Ceramic Pigments 46
SRINIVASAN, K. S. V. Upgrading Low-Grade Grain Leather Using High Performance Polymeric Dispersions by a Transfer Coating System 157
STILLWILL, T. D. Practical Evaluation of Ethylenediamenetetraacetic Acid for Controlling Iron Stains on Vegetable Tanned Leather 481
STILWELL, T. D. Assessment of Vegetable Tannin Extracts by Colorimetry 192
SUDHAKAR, S. Upgrading Low-Grade Grain Leather Using High Performance Polymeric Dispersions by a Transfer Coating System 157
SUNDAR, V. J. Two Stage Tanning - A New Approach for Chrome Management 61
SUNDARA RAO, V. S. Two Stage Tanning - A New Approach for Chrome Management 61
TAHIRI, S. Processing of Chrome Tanned Solid Waste Generated in the Leather Industry: Recovery of Proteins and Synthesis of a Pigment for Paint 1
TAHIRI, S. Study of the Quality of Pigment Prepared by Complexation of Chromates Recovered from Treated Chrome Shavings and Tanned Splits 426
TANCOUS, J. J. Assessment of Vegetable Tannin Extracts by Colorimetry 192
TANCOUS, J. J. Practical Evaluation of Ethylenediamenetetraacetic Acid for Controlling Iron Stains on Vegetable Tanned Leather 481
TAYLOR, M. Closing Remarks 311
TAYLOR, M. Opening Remarks 287
TAYLOR, M. M. Enzymatic Modification of Hydrolysis Products from Collagen Using a Microbial Transglutaminase. I. Physical Properties 319
TAYLOR, M. M. Modified Collagen Hydrolysate, Potential for Use as a Filler for Leather 262
THANGAM, E. Application of Alkaline Protease Isolated from *Alcaligenes facalis* for Enzymatic Unhairing in Tanneries . 127

THANIKAIVELAN, P. Approach Toward Zero-Discharge Tanning: Exploration of NaOH-Based Opening Up Method 222
THANIKAIVELAN, P. Interior Leathers: Application of Leather as a Functional and Decorative Finish 23
UNNI NAIR, B. Approach Toward Zero-Discharge Tanning: Exploration of NaOH-Based Opening Up Method 222
UNNI NAIR, B. Chromium(VI) Formation: Thermal Studies on Chrome Salt and Chrome Tanned Hide Powder 444
UNNI NAIR, B. Tanning Agent Based on Mixed Metal Complexes of Aluminum and Zinc 343
WANG, W. Effect of the Composition of Vinyl Polymer Tannages on the Physical Properties of Leather 14
WHITE, R. Presentation of the 2001 Alsop Award 307
WOLF, G. New Developments in Wet White Tanning Technology 111
YANEK, S. Introduction of the John Arthur Wilson Memorial Lecturer 289
YANG, H. Synthesis of Modified Poly(Acrylic Acid-Acrylonitrile) Retanning Agent with Mannich Reaction and Its Application 437
YANG, Z. Effect of the Composition of Vinyl Polymer Tannages on the Physical Properties of Leather 14
YANG, Z. Synthesis of Modified Poly(Acrylic Acid-Acrylonitrile) Retanning Agent with Mannich Reaction and Its Application 437
YARWOOD, S. Can E-Commerce Replace Conventional Trading 67
YONGQUAN, L. Sheep-Pelt Bating with Acid Protease 398
YOUNSSI, S. A. Study of the Quality of Pigment Prepared by Complexation of Chromates Recovered from Treated Chrome Shavings and Tanned Splits 426
ZUK, W. Water Vapor Permeability Measurement with the "Hy-Tester" Physical Simulator 94

SUBJECT INDEX

Acoustic Emission 367
Acrylic acid copolymers 14
Acrylic polyacid syntan 9
Acrylic syntans 121
Acrylic technology for soft-tough finish 54
Acrylic-based retanning agents 9, 14, 121
Advertising Rates and Requirements 493

Rohm and Haas Announcement 236
Sponsors, Program Advertisers, and Exhibitors at the 97th Annual Meeting 314
Texon Announcement 29
Technical Committee Reports
Committee on Methods 33
Committee on Methods and Specification Review Committee, joint 315
Education Committee 34, 315
Education Subcommittee 34, 277, 316
Research Liaison Committee 34, 316
Uses of Collagen and Its Coproducts 317
Thomas Thorstensen Letter 359
Ways and Means Committee 34, 278, 406
ADDY, VIKKI L. - Biography 186
ALBIZANE, ABBDERRAHMAN - Biography 26
Aluminum/zinc tanning agents 343
AMRAHAR, JAMAL - Biography 451
Anionic and cationic dyes 80
Antibiotic resistance 162
Antimicrobial-compound resistance 165
ASHOK, A. - Biography 27
Aspartic acid content in collagen 471
Aspergillus usamii 398
AZZI, MOHAMMED - Biography 26
Bacterial antibiotics 163
Basecoat polymers 54
Beam house process 127, 180, 222, 398
BERENGUER, JORDI - Biography 103
BERRY, FRANK J. - Biography 70
Biocide degradation 166
Black dystuffs 79
Bluestock area, effect of electron beam irradiation process on 386
Bluestock grading, effect of electron beam irradiation process on 388
BOUHRIA, MOHAMED - Biography 26
Bovine Spongiform Encepalophathy (BSE) 350
BOWDEN, WARREN - Biography 234
Branding alternatives 220
Brands, impact on live cattle price 214
Breed of cattle, impact on live cattle price 216
BRETH, MANFRED - Biography 148
BRYANT, STEPHEN - Biography 186
BSE and Foot and Mouth Disease
history of 351
incubation period for 351
infective agent for 351
mortality rates from 351
public health risks of 351
species of animal susceptible to 351
trade impact from 353
CARDAMONE, JEANETTE M. - Biography 357
CARLE, JURGEN - Biography 148
Cattle breed, impact on live cattle price 216
Cattle price, quantitative model of factors affecting 215
Ceramic pigment from chrome shavings 46

CHANDRA BABU, N. K. - Biography 148
CHAUDHURI, DIPANKAR - Biography 491
CHEN, WUYONG - Biography 275
Chromium(III) basicity at the end of tanning 470
Chromium chloride or perchlorate for tanning 467
Chromium complexes in tanins, leather, and gelatin 133
Chrome VI
effect on detected level from pH at end of fatliquoring 464
effect on detected level from pH during fatliquoring 464
effect on detected level from sunlight drying 465
false positives in determining 177, 445, 461
formation by heating chrome salt and chrome tanned hide powder 444
formation in basic chromium sulfate 448
formation in chrome-tanned hide powder 449
formation of in leather 169, 461
influence of relative humidity on formation during storage 176
influence of washing on formation 175
measures that had no influence on formation 177
method for determining in leather 170
prerequisites for formation in leather 171
process parameters that affect the level in leather 461
process steps affecting formation 173
role of dystuff on formation 174
role of fatliquor composition on formation 173
toxicological behavior 169
Chrome leather, stability after tanning 477
Chrome management 61
Chrome tanning
effect of basicity on reactivity 473
myths 467
reactions with collagen 471
role of ethanloamine in 474
role of masking agents in 474
role of sulfate ion in 468
temperature and pH effect on 472
use of multidentate masking agents in 475
use of urea sulfate to replace sulfuric acid 268ff
with chrome chloride or perchlorate 467
Chrome uptake 63
Chrome-tanning mechanism 133, 295, 467
Chrome-tin pink 50
Chromium in spent tan liquors 64
Cobalt-chromite green 48
Collagen
change in D-periodicity 298
crosslinking 91
hydrolysate as a leather filler 262
self assembled unit 292
structure of complex with chromium by EXAFS 133, 468
Colorimeters, comparison of 196
Colorimetry of vegetable tannins 193
Competence, organizational 257

Competitive advantage enhancement techniques .255
Competitive advantage .256
Compliance of leather .252
Compliance, effect of liming time on .379
Composition of tannery solid waste .4
Computation techniques in understanding tanning .294
CONDON, LEONARD W. - Biography .357
Crosslinking of collagen .91
Crust area, effect of electron beam irradiation process on .387
Cutability, effect of electron beam irradiation process on .386
DAVIGHI, DANTE - Biography .186
Deliming and pickling .113
DHATHATHREYAN, ARUNA - Biography .451
DIEN, MICHEL - Biography .103
Diffusion and transport phenomenon into leather .293
Dilatometry .419
Digestion of chrome-tanned waste .2, 47
Double-muscled cattle .393
Draw, effect of electron beam irradiation process on .388
Drying in sunlight, effect on chromium(VI) formation .465
Dye fixation .337
Dye penetration .337
Dyeing .335
Dyeing, black dyes for .79
Dynamic Mechanical Thermal analysis .477
E-commerce .67
Electron beam irradiation for preservation of cattle hide .382
Elongation at break .346, 388
E-mail .67
Embossing "cut-through" resistance .55
Energy/volume at break .340
Enzymatic modified gelatin .323
Enzymatic unhairing .127, 180
Enzyme assisted less-sulfide unhairing process .130
Enzymes
  acid protease .398
  alkaline protease .127
  collagenase, inhibition with chromium(III) .299
  neutral protease .180
  transglutaminase .319
ERVIN, R. TERRY - Biography .235
Ethylenediaminetetraacetic acid .481
Exhaustion of chrome from tanning bath .61
Extended X-ray absorption fine structure (EXAFS) Spectroscopy .133, 468
Extensibility .394
Fat emulsification .207
FATHIMA. N. NISHAD - Biography .451
Finishes .54
Finishing defective leathers .157
Flex endurance .57
Foot and Mouth Disease .350
Foot and Mouth Disease, geographical distribution of .352

Formic acid .333
Fungicidal activity .164
Fungicides .163
GEHRING, ANDREW G. - Biography .275
Gel strength of enzymatic modified gelatin .322
Gelatin
  enzymatic modification of .319
  gel strength .322
  melting point of .323
  viscosity of .327
Gender of cattle, impact on live cattle price .216
Glutamic acid content in collagen .471
Glutaraldehyde crosslinking of collagen hydrolysate .264
Glutaraldehyde pretannage .112
Glutaraldehyde, polymer modified .114
Glyco-protein .393
GNANASEKAREN, C. S. - Biography .148
Goatskin garment leather .441
GRAF, DIETER - Biography .186
Grain crack strength .346
Handy's Sigmoid curve .258
HANKEY, RUMON A. - Biography .234
HAQUE, MAINUL - Biography .186
HENNIG, CHRISTOPH - Biography .149
HERRING, A. D. - Biography .235
Hide color, impact on live cattle price .216
Hide composition .90
Hide preservation .91, 382
Hide quality .214
Hides and leather research projects at the USDA .89
High performance polymeric dispersions .157
Horns, impact on live cattle price .216
Hydrothermal shrinkage .422
Hydrothermal stability .295, 346, 417, 467
"Hy-tester" physical simulator .94
IGL, GEORGE - Biography .148
Iron content in tannin extracts and syntans .488
Iron content in tanyard liquors .488
Iron stains on vegetable tanned leather .481
JAYAKUMAR, R. - Biography .148
KING, VANJA - Biography .186
LANDRIDGE, DAVID A. - Biography .234
LATONA, NICHOLAS P. - Biography .401
Leather
  coating of with polyurethane finishes .157
  composition of crust .161
  decorative finish with .23
  finishes for .54, 157
  organoleptic properties of .230, 348
  physical properties of .10, 17ff, 124, 248, 442
  processing with surfactants .205
  properties of .10, 23

shrink temperature of 124
softness of 229
sound adsorption of 23
thermal insulation of 23
upgrading of 157
volume measurement 420
water vapor permeability of 97
Levelness of dye on crust leather 338
LI, YONGQUAN - Biography 401
Light microscopy
grain surface 183
of enzyme treated sample 182, 183
showing distribution of elastin fibers 183
Lightfastness of black dyes 85
Liming time effect on opening up 374
Liquid effluent, composition 231
Live cattle price, impact from season when slaughtered 216
Live cattle value,effect of hide quality 214
Livestock trade 350
Lubricating acrylic systan 9
Mad cow disease 350
MADHAN, BALARAMAN - Biography 148, 357
Mannich reaction 437
Market share 257
Maximum % strain 340
Maximum stress 340
Mechanical property studies 91, 245, 346
Melting point of enzymatic modified gelatin 323
MESSAOUDI, ALI - Biography 26
Microbiocides 163
MOHAMMED, INTISAR - Biography 186
Molecular modeling 293
Molecular weight effect on performance of syntans 11
MONDAL, SANJIB - Biography 491
MOURID, ABDELILAH - Biography 451
MURALIDHARAN, CHELLAPPA - Biography 70
Myostatin 393
NAGARAJAN, T. - Biography 148
NAVARRO, ANGEL - Biography 103
Neutralization during fatliquoring, effect of on chromium(VI) formation 463
Nonyl phenol ethoxylate 206
Opening-up of the leather structure, detection of 367
Opening-up, liming time effect on 374
Opening-up with a NaOH-based method 222
Paint pigment from chrome tanned solid waste 1
PATTERSON, L. N. - Biography 235
PAUL, R. GORDON - Biography 186
Perspiration exposure 339
pH after fatliquoring, effect on chromium(VI) formation 463
Phenotypic characteristics 214
Physical properties
effect of the composition of vinyl polymer tannages on 14

effect of vacuum drying on .245
effect on from myostatin deficiency .393
of acrylic co-tanned leather .124
of acrylic finish polymers .56
of coated crust leather .161
of dyed crust leather .340
of leather .17ff, 230
stiffness .17ff
tear load .346, 442
tear strength .248, 442
tensile strength .17ff, 346, 388, 390, 394, 442
toughness .17ff
Pigment from chrome tanned waste .3, 48, 426
Plate release/lower tack .56
Poly(acrylic acid-acrylonitrile) synthesis .437
Polyurethane dispersions for finishing .157
Preservation of cattle hide .382
PRICE, DAVID N. - Biography .70
Process enhancement .261
Properties of dyes .80
Protein from chrome-tanned waste .1
Publication Policy .73
Pycnometer .418
Quebracho solution, effect of iron on its color .485
Quebracho .194
RAJKUMAR, G. SUSSELA - Biography .148
RAMASAMI, THIRUMALACHARI - Biography .70
Rat tail tendon .296
REICH, GUNTER - Biography .149
REICH, TOBIAS - Biography .149
Residual acidity of crust leather .337
Retan, color, and fatliquor process .333
Retanning agents .9, 14, 121, 437
Retanning procedure .16
ROSSBERG, ANDRE - Biography .149
Scanning electron microscopy
of *A. Niger* fungal hyphae and spores on hide .166
of enzyme unhaired bovine hide .182
of chrome tanned hides .228
of cross section with different moisture content .423
of crusted leather .228
of finished leather .184
of grain surface with different moisture content .423
of leather cross-section .372
of NaOH treated hides .227
of red heat(archaea) on hide .164
of tanned leather .347
of vegetable tanned leather .126
SCHOLZ, WOLFRAM - Biography .234
SENIOR, KERRY - Biography .234
Sheep-pelt bating with acid and neutral protease .398
Shrinkage of hides and skins .417

Shrinkage temperature 124, 467
Shrinkage temperature, effect of liming time on 379
Shrinkage temperature, the effect of excess carboxylate after chrome tanning 476
SIBARI, ABDELHALIM - Biography 26
SMART, LESLEY E. - Biography 70
Sodium hydroxide for opening-up 222
Soft-tough acrylic technology 54
Sound adsorption of leather 23
STILLWILL, TIMOTHY - Biography 234
Strategic management process 255
SUNDAR, VICTOR JOHN - Biography 70
SUNDARA RAO, VAJHALA SYAMA - Biography 70
Sulfuric acid in chrome tanning .....
Surfactant
  analysis of 210
  chemical types and commercial sources of 213
  degreasing with 205
  in leather processing 205
  nonyl phenol ethoxylate 206
  properties of 209
Syntans 9, 14, 121
TAHIRI, SOUFIANE - Biography 26
Tannery Waste
  ceramic pigment from 46
  composition of 4
  collagen hydrolysate from, modified for use as a leather filler 262
  digestion of 2, 47, 427
  recovery of protein from 1
  synthesis of a pigment from 1, 426
Tanning
  aluminum(III) for 469
  chromium(III) chloride or perchlorate for 467
  combination systems for 120
  process 291
  role of sulfate ion in 469
  science of with chromium 467
  two-stage 61
  unified theory for 290
  urea sulfate as a replacement for sulfuric acid in 268
  with aluminum/zinc complexes 343
  with glutaraldehyde 112
  zero-discharge 222
Tear strength 248
Tearing load 346
Technical process design 260
Tensile strength of sheep pelt 399
Tensile strength 17ff, 346, 388, 390, 394
Tensile strength, effect of liming time on 377
THANGAM, E. BERLA - Biography 148
THANIKAIVELAN, PALANISAMY - Biography 27, 235
Theory for tanning 290
Thermal insulation of leather 23

Tinctorial properties of black dyes 84
Toughness 57, 250
Toughness, effect of liming time on 377
Toxicological properties of black dyes 84
Transfer coating system for leather finishing 158
Two-stage chrome tanning 61
Unhairing
  program at USDA's ERRC 91
  with acid protease 398
  with alkaline protease 127
  with neutral protease 180
Urea sulfate 268, 333
USDA's hides and leather research program 88
Utility-glove leather 461
Vacuum drying's effect on mechanical properties 243
Vegetable tannin extracts 192
Vegetable tanning 120, 481
Veitch's yellow and red readings for various tannins 201
Vinyl polymers 14
Viscosity of enzymatic modified gelatin 327
Volume changes during processing of leather 417
Volume of leather, measurement techniques 421
WANG, WEI - Biography 26
Water vapor permeability measurement 94
Wattle solution, effect of iron on its color 485
Wattle 198
Weight of cattle, impact on live cattle price 218
Wet-white technology 111
WOLF, GERHARD - Biography 148
YANG, HUAXIANG - Biography 451
YANG, SONGSUI - Biography 27
YARWOOD, SIMON - Biography 70
Yellow and red values for vegetable tannins 200ff
Young's modulus 251, 340, 394
YOUNSSI, SAAD ALAMI - Biography 451
Zero-discharge tanning 222
